400mm Mesh type coiling machine

1. Application:

The machine is suitable for the Cat "5" and "6" cable and coaxial cable to take-up and bundling, it suitable for the regulation of national cable packaging, also meet to the packaging requirements in UL standard, the wire coil is horseshoe pigtail shape. Can linkage and single action take-up with the accumulator of extruder.

2. Features

Reticular wire bundling is the popular coiling way of wire and cable at home and abroad. The machine is designed and researched according to the requirements

of the customers and combined with the actual situation of our nation with the characteristic of simple structure, reliable performance, economic and practical, convenient operation. It has gained a deep popularity among the users since put into the market.

Horse-power	3HPmotor4P 50HZ+inverter
Method of row spacing	By rotate bobbin and wire bobbin adjustable
Throw	By PIV adjustable
Take-up type	CAT-5 line Length 305m
Take-up spool	Outer diameter ϕ 400×Outer width340×inner width200×barrel diameter ϕ 188 (mm)
Meter counter	Meter counter can setting valve before 2m alarm, meter counter have arrived meter shut-down and automatic go zero
Method of brake and clutch	Electromagnetic clutch EFWF-T050
Machine size	(L)1200mm x (W)800mm x (H)900mm
